

PRESS RELEASE – February 4th 2010

Dylanmae Limited and PM Learning Inc team up to deliver Business Project Management Experiential Learning

Dylanmae are pleased to announce that they have been appointed as PM Learning's Certified Delivery Partner and Reseller in the U.K. for their innovative experiential gaming simulations.

Experiential learning gaming simulations enable participants to feel the pressure and heat of a project in a non-threatening environment. "We think of this as a flight simulator for individuals and project teams" says Michael Finer, Director of Dylanmae.

"We are very pleased to have appointed Dylanmae as they have a wealth of project management experience and we are confident they'll be a great partner for us" – Igor Osipov, Managing Director of PM Learning Inc.

Dylanmae are running public workshops featuring two of the gaming simulations in London during May 2010. Challenge of Egypt™ focuses on the interaction of the project team members and their roles, responsibilities and project scope as they build a replica of the Cheops Pyramid. Ultimate Route™ is a simulation that emphasises the importance of risk management in a project, and its relationship with scope, as the team construct a highway to a strict budget and timescale.
